

Product Brief

Name	T2-WHS-A2
Date of release	1 st November 2007

Features

The new Windows Home Server appliance with additional storage facilities.
Now available with **2x** 3.5" internal HDDs + **6x** USB2.0 ports + (optional) **4x** or **8x** eSATA ports.

The **T2-WHS-A2** unit has all the power efficiency benefits of the T7-HSA, ie 24W power consumption for the base model, but with additional storage capacity, and numerous mounting options.

The system, being fanless, is optimised for near silent operation, and has exceptional reliability characteristics.

The standard unit is desk top mounted, but there are options for 19" rack mounting, wall mounting, or floor mounting.

The second internal HDD provides data duplication as offered by the Windows Home Server system. The extra six USB2.0 ports offer additional storage capacity for external USB HDDs.

The optional eSATA options provide 4 or 8 ports for additional storage using external eSATA HDDs.

Pricing / options :

Base unit	T2e chassis, 512MB RAM, 500GB (single HDD), Gbe LAN, desk mount, Windows Home Server system 6x USB2.0 HDD ports, (option to fit 2 nd 3.5" internal HDD)	£399.00
RAM	512MB to 1GB	£12.00
HDD	500GB > 1TB (2x 500GBHDDs, leaving no spare slots)	£79.00
	500GB > 1TB (1x 1TB HDD, leaving 1x spare slot)	£139.00
	500GB > 2TB (2x 1TB HDDs, leaving no spare slots)	£329.00
Mounting	Desk style	£0.00
	Colour coded 19" rack mount kit	£9.00
	Colour coded Wall mount kit	£19.00
	Floor mount kit	£6.00

	Two 4 port eSATA PCI cards on dual riser	£79.00
Recovery Kit	Tranquil / Paragon system recovery system	£48.00

Technical data

Unit dimensions	387 (w) x 356 (d) x 66 (h) mm
Unit construction	Steel, aluminium, Polycarbonate (typically >70% recycled materials)
System heat sink	Aluminium with custom heat pipe cooling system (TranCool2)
Colour options	Satin Black
Front panel	10mm 'glass effect' with cool lighting and laser etching (Power / HDD activity LEDs)
Rear panel	12V DC power in / 6x USB2.0 / Gbe LAN
Weight	Base unit (nett) 7Kg
Power supply	External AC/DC with country specific power cord
PCI expansion	2x slots (spare or populated with eSATA 4 port cards)
HDD support	2x 3.5" HDD support, in cooled, shock resistant sub system
Working temp	Maximum 48°C ambient
Power consumption	24W (base unit)
Warranty	24 months RTB
